PAN-AMERICAN CONFERENCE

Chairman of U. S. Delegation Sums Up the Work Accomplished.

GIVEN A HEARTY FAREWELL

Besides a Special Committee All the Delegates and Employes Were at the Station.

By Associated Press.

Mexico City, Jan. 10.—Ex-Senator H. C. Davis, chairman of the United States delegation of the International conference who left for Washington tonight took leave of the conference at this morning's session in a brief speech, saying in part:

"Much against my desires, circumstances require me to leave tonight for my home. It is pleasant, however, to think that the work of this conference appears to be approaching an end. Among the projects adopted are the reports of the Pan-American railway and bank committee to which I was assigned. Enough has been accomplished to assure us that much good will come to the American republics as a result of the second Pan-American conference.

Among the achievements of the conference a plan of arbitration has been substantially agreed upon that will be of great value to all of the republics. This, I feel sure, is a long step towards preserving peace and settling disputes between American republics.

"The addition of The Hague treaty was a step in advance of any previously taken by the nations of the world and clearly shows that civilized man everywhere wishes to avoid war if possible. Permit me to say to my colleagues of the southern republics where questions so often arise especially about the boundaries, that if you accept the opportunity to accept The Hague articles it will be the greatest and best move you can make toward a peaceful settlement of all disputed questions, thus showing the delegates of civilized nations of the world.

"The tribunal and board appointed by this convention is already demonstrating its usefulness. Among the recent important questions referred to it are two submitted by France and England and the United States and England are preparing to submit the Alaskan boundary and other questions to arbitration.

"A number of measures have been and others will be adopted by this conference by which the republics of America will be brought closer together and by which their general welfare will be advanced."

Senor Carbo of Ecuador presented a motion to the effect that the conference recognizes the services of Mr. Davis and regrets his departure. This motion was seconded by Senor Chivero of Mexico, Blestgney of Chile and General Reyes of Colombia and carried unanimously.

President Raigosa appointed Senor Cassius of Mexico, General Reyes of Colombia, Sanchez Marmot of Mexico and Lazorarriga of Mexico, a committee to take care of Senator Davis at the station, but in addition, Mr. Raigosa himself and the delegates as well as the employes of the conference were at the station.

This morning in company with United States Ambassador Clayton, Mr. Davis had a long and cordial interview with President Diaz. Nothing has been decided in the matter of arbitration and, as has been predicted by the Associated Press correspondent, six delegations refrained from attending today's session by way of protest, viz.: Peru, Argentina, Bolivia, Paraguay, Venezuela and Santo Domingo.

The approval of the project for the exchange of publications was the only business transacted at this morning's session.

ARBITRATION DIFFICULTY IS PRACTICALLY SOLVED

By Associated Press.

Mexico City, Jan. 10.—It is believed that the arbitration difficulty in the Pan-American conference has finally been disposed of, though it is uncertain how the Chileans will act.

The solution is to be found in the suppression of the final protocol, for which purpose a modification of the rules of the conference will be necessary. For this purpose a two-thirds vote will be needed but it is already practically assured. The suppression of the final protocol is the only concession that will be made to the Chileans. Its significance is simply that the treaties approved by the conference will only bear the signatures of the delegations who adopt them. The final protocol will bear the signatures of all the delegations without exception and it would be a resume of all the treaties concluded by the conference, including that of compulsory arbitration, signed by 10 delegations. Therefore, as the Chileans would have had to sign the final protocol with the other delegations, they would have been placed in the position of incredibly sanctioning the plan of compulsory arbitration. Now, however, if the final protocol is abolished, this difficulty will be overcome and it is hoped that the Chileans will be evincing excessive sensitiveness if they persist in withdrawing. One of them, when asked tonight by the Associated Press correspondent what they would do if the compulsory plan went to the conference in the form explained in the foregoing, said that his delegation would act according to circumstances and instructions. He denied that they had ever threatened to withdraw Chile's delegation from Mexico.

AN OVATION TO SCHLEY IN SAVANNAH GEORGIA

By Associated Press.

Savannah, Ga., Jan. 10.—Rear Admiral Schley, accompanied by his wife, arrived in this city this afternoon one hour and a half late. The station was thronged with people who waited patiently to greet him. As he alighted the cheering was deafening.

Mayor Myers and a delegation of aldermen extended the admiral an official welcome and asked his consent for a formal reception tomorrow afternoon at the City hall. The admiral agreed. Carriages were then taken for the residence of General W. W. Gordon where Admiral Schley and Mrs. Schley will visit for 10 days. General Gordon was a member of the Puerto Rican commission of which Admiral Schley was a member.

In the evening Admiral Schley and Mrs. Schley occupied a box at the theater where Mme. Nordica sang. When the audience recognized him there was enthusiastic cheering of such volume and persistency as to temporarily delay the performance. After an encore Mme. Nordica crossed to the box and shook hands with Admiral Schley while the audience stood and cheered. Upon the conclusion of the evening's bill apparently practically the whole audience waited at the door and cheered the admiral as he entered his carriage and drove away. The public reception tomorrow will last two hours.

THE HOUSE DISCUSSED PERMANENT CENSUS BUREAU

By Associated Press.

Washington, Jan. 10.—The house spent the day considering the Hopkins bill to create a permanent census bureau. While the general sentiment was in favor of a permanent bureau, there was strong opposition to the bill as drawn, on the ground that it was not sufficiently limited. There also was an overwhelming demand for a provision to place the present employes of the census bureau under the protection of the civil service law and the bill finally was recommitted with instructions to report back a bill containing a plan for a detailed organization of a permanent census bureau, to include also a provision to place the present employes under the civil service.

A bill was passed unanimously to give Mrs. McKinley the free mailing privilege. The house began adjourned until Monday.

PANAMA REPRESENTATIVES SUMMONED TO APPEAR

By Associated Press.

Washington, Jan. 10.—At the request of Senator Morgan, chairman of the senate committee on inter-oceanic canals, the sergeant-at-arms of the senate today issued a subpoena for Mr. Lampre, representing the Panama Canal company, to appear before a committee. The subpoena was served and M. Lampre will attend a meeting of the committee at 11 o'clock tomorrow.

LEXINGTON WOMEN OBJECT TO "UNCLE TOM'S CABIN"

By Associated Press.

Lexington, Ky., Jan. 10.—Lexington chapters United Daughters of Confederacy have sent a written petition to Charles B. Scott, manager of the Lexington opera house, asking that the play "Uncle Tom's Cabin" never be played again at the opera house here. They give as reason that the best citizens and their families living in and about Lexington were once slave owners as a rule and they are objecting that the Uncle Tom's Cabin are represented as slave holders in the south. In most cases that the production is a libel on the play and its being advertised with blood hounds and pictures of an old negro in chains and a slave owner with whip in hand, give a false idea of the history in the times to the children of the city and its disrespect to the southern gentleman and good citizens and their families in this part of the country.

The petition is signed by four of the most prominent women of the chapter and indorsed unanimously by the members. It has created a sensation here.

One Way, $[illegible] Trip.

Today just to Cripple Creek was the Colorado Midland Railway.

Tickets to Cripple Creek by the Colorado Midland railway.

ALL THE NEWS

Adolbert Kahl of Colorado Springs proposed to establish a plant in Florence to manufacture brick by a patent process.

Twelve young men of this congressional district are taking competitive examination for admission into West Point Military academy on appointment by Congressman Bell on behalf of the Denver city council which has been investigating the affairs of the fire and police departments made its report last evening; the report contains a sweeping condemnation of the methods used in the conduct of the department. The buildings and apparatus of the fire department, the report says, need repair.

The proposed Las Animas forest reserve has been abandoned.

Pueblo Business Men's association held its annual meeting last night and elected a strong board of directors for the coming year. Secretary Dey's report showed large amount of efficient work done during the past year.

—GENERAL—

George B. Ketcham, owner and driver of Cresceus, states that during the year he received more than $20,000 in purses and money for exhibitions given in various parts of the country by Cresceus. The horse has been taken to the Ketcham farm, where he will remain during the winter.

It was stated that unsecured creditors of the Everett-Moore syndicate representing $1,000,000 out of a total of $1,800,000 have signed agreements to grant extension of their claims covering a period of 18 months.

—WASHINGTON—

Representative Lovering of Massachusetts has introduced a bill providing a salary for ex-presidents of the United States at the rate of $25,000 annually from the date of retirement from the presidency. The bill is to apply to any ex-president living at the time the law is enacted.

—FOREIGN—

The London Daily Mail claims the authority to deny that the British government has any intention of taking over the British chartered South African company at the conclusion of the Boer war. The directors of this company are preparing an important scheme, however, to attract new capital with the view of further developing Rhodesia.

—MINING—

The mining stock market yesterday was somewhat weaker, Elkton suffering another decline, and Isabella went below 20. There was a good demand for Doctor at higher prices and Vindicator was active at 21¾. Cripple was a good trader at higher prices.

The present management of the Isabella company is sending out a circular letter written by the largest holder of stock, advocating the re-election of the Williams management. The opposition has mailed a letter strongly urging the opposite course.

The official report of the C. K. and N. company shows the overissue to be 101,000 shares, less 8,000 shares which will revert to the treasury. The company will have to bear the loss, and 101,000 shares of treasury stock has been set aside for the purpose.

The production of the Wild Horse mine is $24,000 and not $1,400, as was made to appear by an error in yesterday's paper.

EXPRESS COMPANIES REJECT CLERKS

By Associated Press.

Washington, Jan. 10.—The laborers employed in the government departments will be brought into the civil service under presidential orders, the first of which will be issued in the near future. The unions will be made separately by departments instead of in bulk. There was a conference at Postmaster General Smith's office today between Mr. Smith, Secretary Hitchcock and Civil Commissioner Foulke, at which the classifications of laborers and of temporary employes appointed under the exigencies of the war with Spain were considered. No action will be taken as to temporary appointees until congress makes the offices permanent. Commissioner Foulke, however, will prepare at once regulations for the classification of laborers in several of the departments where laborers are not already subject to regulations. There will be no schedule examination, applications being graded according to experience and recommendations, with the required preference to war veterans. This registration system already is in operation in the navy department under regulations made during the Tracy regime, and also is in force in the war department.

CHICAGO INVESTORS DEMAND INTEREST

By Associated Press.

Santa Fe, N. M., Jan. 10.—Chicago investors were purchasers of $2,000,000 of the issue of bonds of the Santa Fe Electric Street Railway company which has gone out of existence and never built the street railway for which it had been granted a franchise and for which the city had guaranteed the interest on its proposed bond issue. George W. Brown and other Chicago attorneys today made formal demand upon the city for the payment of defaulted interest coupons on the bonds and were refused.

CLEVELAND IMPROVED.

New York, Jan. 10.—Ex-President Cleveland has so far recovered from the effects of his recent attack of pneumonia as to have arranged for a hunting trip to the south. He will leave his home at Princeton, N. J., January 21 for an island off Georgetown, S. C., where with a party of friends he will remain seven days.

SEEK VENGEANCE AGAINST OFFICIALS

Taxpayers Petition the Courts to Prevent Disposal of Money for Seven Lakes Property.

Auditor's Statement.

A suit will be begun in the district court late today or on Monday, asking for an injunction restraining the city officials from paying to S. S. Wade, or the men he represents, the $69,000 authorized at a meeting of the city council Thursday night in payment for the Seven Lakes reservoir site. The suit, which is being brought by S. F. DuRee on behalf of himself and other taxpayers of Colorado Springs, is the course of preparation by one of the most prominent attorneys of Colorado Springs.

It is asked that the restraining order be issued on the city auditor, city treasurer and the aldermen.

Developments followed one another in rapid succession yesterday in the Seven Lakes dispute. Following the announcement that on Thursday night the city councilmen had authorized the payment of the $69,000 from the fund created by a bond issue for that purpose, came the announcement that Mr. DuRee would bring an injunction suit. The mayor, City attorney, several aldermen and other officials, including City Auditor Harris and are said to have requested him to issue the warrant to Mr. Wade. Mr. DuRee also visited the city auditor and served notice upon him and his bondsmen that if he issued the warrant the auditor and bondsmen would be held personally liable. Mr. Harris was told that an injunction suit was to be brought.

Mr. Harris said that the law gives him discretion in such matters, and as he preferred to protect his bondsmen he decided not to issue the warrant.

Mr. Wade came later, and was told that he would have to wait for the warrant. Mr. Wade said last night that he would get the money in spite of litigation.

The auditor said last night that he had told Mr. DuRee that he would wait until the opening of court Monday morning before issuing the warrant to Mr. Wade. The suit will probably be filed not later than Monday morning.

The complaint will state as grounds for the injunction that the city council exceeded its statutory power in making the purchase of the Seven Lakes property as well as in issuing bonds to secure the money for the purpose.

City Auditor Harris was seen last evening and was asked for a statement in regard to the delay in issuing the warrant for $69,000 for the Seven Lakes, as ordered by the council on Thursday evening.

"I do not see," said Mr. Harris, "the necessity for any haste in this matter. It is not the ordinary course of business for the councilmen or members of the finance committee to oversee the issuing of warrants and why should this not be left to the ordinary course of business, like other warrants?

"All warrants issued by me are held by me in escrow until I get the proper signature and are delivered by me to the persons to whom they are to be paid. No one else can get them from me. I know of no good reason why the members of the finance committee, the mayor, the city attorney and others should have come to my office this morning to see that my duties were performed in this particular case, rather than in any other, and I know of no reason why I should not follow the usual course of my office in this as well as in other things. It is quite unusual to insist that the auditor shall issue a warrant at 9 o'clock in the morning, or at any other particular hour.

"But as we from this have been served with a notice that an injunction suit is about to be filed to prevent the issuing of this warrant and I understand that other officers of the city have been served with a similar notice. Now my position is simply this, that the taxpayer, whether he be worth a thousand dollars, or a hundred thousand, gives me such a notice in such a case, and asks for reasonable time to prepare and present his papers to the courts, he shall have such time. The state law gives me a discretion in such matters and I intend to use such discretion for the benefit of the taxpayers. That is the reason why I did not issue the warrant today, but further than that I have received no notice not even from anyone that the money from the sale of those bonds has been received, and so far as my books show on my the amount available in the Seven Lakes fund is only $5,000, which is the amount advanced by the bidders at the time the bonds were sold.

"In a case of this kind, if anyone says to me that the money is here to pay this warrant, it should be the auditor. These bonds were sold to get money for a special purpose, cannot draw this warrant against a general fund, or against nothing at all, unless I am certainly informed by somebody more definite than hearsay that the money is here, before I would be proper for me to draw a warrant in payment.

"I am [illegible] a man in good faith. I am [illegible] the meeting of court on Monday morning to [illegible] and [illegible] I am properly informed that the money is here, I shall issue the warrant, and I have personally informed Mr. DuRee to that effect.

"S. S. Wade, when asked about the drawing of the warrant in payment for the Seven Lakes property, stated that he went to City Auditor Harris and demanded from him the $69,000. He said Mr. Harris said he had received notification not to pay the amount, and that as he feared he might involve his bondsmen in some difficulty if he went ahead and paid it on his own responsibility, he preferred to wait a day or two until something further was done about it.

"There are a few people with plenty of money behind them," said Mr. Wade, "who have fought the Seven Lakes proposition from the start, but they cannot prevent its consummation. We will get the $69,000 even if it involves an immense amount of litigation."

CATTLEGROWERS COMMEND PRESIDENT HILL'S WORK

By Associated Press.

Fargo, N. D., Jan. 10.—The feature of the Tri-State Grain and Cattle Growers convention here today was the address of Mr. Hill and the adoption of resolutions commending President Hill for his work on behalf of the northwest. The resolutions were adopted almost unanimously by the convention prior to the arrival of Mr. Hill. An attempt was made to have these particular resolutions stricken out but the attempt failed and the resolutions stand as the sense of the convention.

The resolutions are as follows:

"The natural and logical line of transportation for the products of the northwest American states is from the nearest point on the Pacific coast to the next nearest market point on the great lakes, through and traversing the great basin of the upper Mississippi, the valley of the Red River of the North, the headwaters of the Missouri, and the fertile lands lying between the Canadian border and the Columbia river on to the Pacific coast. The trade entering the United States and destined for the north, middle and eastern state can best reach its destination by this route, and to divert it to the south or encourage its transportation through the provinces of Canada would not only add to the cost of the delivered goods but would deprive the states from which it would be deflected of their share of the tax upon the gross earnings of the roads carrying it and thereby depleting the revenues of the state through which it would be carried were the ordinary rules of commerce followed.

"It is the sense of this meeting, therefore, that in resisting the attempts of the Union Pacific railroads and its allies on one hand and the Canadian Pacific and its feeders on the other, to secure control of the Northern Pacific railroad, James J. Hill has performed a notable public service and once more displayed the far-sighted and businesslike policy that has characterized his long career as the great developer of northwestern resources and the most watchful guardian of northwestern interests."

WASHINGTON ITEMS OF INTEREST TO COLORADO

Special to the Gazette.

Washington, D. C., Jan. 10.—In the house this afternoon Representative Bell moves to recommit the permanent census bureau bill to the committee with instructions to report a completed bill providing for a permanent census bureau with the present employes. The bill was recommitted.

Mr. Bell today submitted a petition from Colorado women praying for a joint S. R. 72, asking that have women be committed in government parks.

Father Malone will have gone tomorrow for Denver. He will return here in about [illegible] days. While here he was a guest of Col. White [illegible]

Representative [illegible] today [illegible] Mr. Patterson, [illegible] Mr. Patterson, gave a reception in his [illegible] yesterday. Mrs. Patterson was assisted in receiving by Mrs. D. Sullivan, Mrs. [illegible] McKee and Mrs. C. C. Bruce of Colorado. Senator and Mrs. Patterson will make the Colorado Club home for the winter.

Secretary Gage today designated the members of the Tariff Board of Commission [illegible] and the [illegible] of Colorado [illegible] A. S. Evans of Colorado [illegible] member and secretary.

—POSTAL RECORD.—

Associated Press.

Charleston, W. Va., Jan. 10.—A roller [illegible] at the Rocky Point of James [illegible] in this county [illegible] Mr. Brown, who is [illegible] passed [illegible] of the road, will take Mr. Hay's place on until the successor is appointed. He was last seen [illegible] Mr.

PEOPLE OF MISSISSIPPI OBJECT TO NEGRO UNIONS

(Special Correspondence.)

Meridian, Miss., Jan. 7.—It looks as if the famous saying "A black man has no rights that a white man is bound to respect" is no good in this section of the present day. The latest incident evidencing this occurred last Saturday, when Charles S. Celley, general organizer of the American Federation of Labor and Amalgamated Woodworkers, was ordered by the mayor and leading citizens to stop his work in forming negro unions.

He came here a few days ago on Friday evening, January 3. He held an open meeting at the city hall, both white and black men being present. At the conclusion of the meeting unions of white carpenters and woodworkers were organized and also a union of negro laborers. No more negroes have been allowed at his meetings, and he is working now only among the whites. The reason is that the next day after his first meeting he received a call from Mr. C. S. Rivers, who delivered the following document:

Meridian, Miss., Jan. 4, 1902.

Mr. C. S. Celley, Meridian, Miss.

Dear Sir: I am informed that it is your purpose to organize the negroes, both men and women, into labor unions, to which we make a decided objection. There is no impropriety in your organizing the negroes, but we do object to the organization of the negro. We have had and are still having enough trouble in that line. You are respectfully asked to desist.

Respectfully,

C. S. Rivers, Mayor.

We, citizens of Meridian, fully endorse the above:

Geo. E. Clark,
C. C. Williams,
L. M. Harris,
W. T. Bozeman,
[illegible] Bailey,
[illegible] Rothenberg,
W. W. George,
H. L. Browne,
Brown McMorries,
W. A. Brown,
A. C. Hunter,
Frank C. McGhee,
[illegible] Marks,
Gabe Jacobson,
J. [illegible] Rivers,
W. O. Culpepper,
W. G. Causey,
C. W. Robinson,
[illegible] W. Broach,
[illegible] S. Rivers,
Weems, Smith & Houston.

The signers of the petition, so far as I can see, are among the most prominent, wealthy and influential men in the city. They are bankers, wholesale and retail merchants, lawyers, insurance, real estate and railroad men. What is more, they are backed up by almost the entire business community.

This letter was typewritten on the office of the city attorney and was signed personally by the mayor named. After some talk about the matter Mr. Celley said to Mr. Rivers:

"Am I to understand from this that I must stop organizing the negroes?"

"Yes."

"What will be the result if I do not?"

"We will not stand for it."

"Do you mean you will run me out of town?"

"We'll, we will make it warm for you."

So Mr. Celley ceased work among the negroes and no more black people were admitted to the meetings although the public announcements said they would be welcome. The invitations are worded differently now.

"This is the first time I have run up against anything of the kind," said Mr. Celley, "since I left St. Louis a few weeks ago. I have been organizing unions in southern states, and in no instance previously was objection made to organizing the negroes. In Memphis, Jonesboro, Little Rock and Vicksburg I organized unions of colored men. They were barbers, carpenters, cooks and waiters. But it seems as these Meridian men won't stand for it."

"As there is plenty of work for me to get the white men together, I shall let the negroes alone until I hear from Washington. You know it is the policy of the American Federation of Labor to exert all possible effort to better conditions for all laborers, both white and black. We believe that if the negro is taught through his unions to demand good wages and fair conditions it will prevent the white men being reduced to the negro's level as to a cheap competition with that class of workers. So in helping the black man to better himself the white man is only protecting himself. We've got both white and black will be well organized here very shortly."

In the talk made at the first meeting to the people present now the men and women in the north and west have organized and get good wages because of their unions. In contrast to those conditions the girls and women who work at housework have joined hands and demanded better pay and treatment.

"Down here all the housework is done by negroes. Every family has a black cook who is paid $1 to $2 a week, compelled to sleep at home and allowed to carry off the cold victuals not wanted by the white family. The chief of police was present at the meeting and I suppose he must have concluded we was going to organize those colored women into a union and have them demand better pay. Anyhow, he reported something to the mayor. The letter was prepared and signed, and then given to me along with the emphatic verbal statement that to organization work among the blacks would be tolerated."

SPECIALTY ITEMS

AN IMPROVEMENT—The awning at the Alamo hotel is to be remodeled. Furnishings, to cost about $5,000, will be put in.

CHURCH RECEPTION—A reception to new members of the congregation was given last night at the Cumberland Presbyterian church.

LITERARY CLUB—The Woman's Literary club will meet with Mrs. A. Morrison at 1402 North Weber street, this afternoon at 3 o'clock.

PRIMARY UNION—The Primary union meets every Saturday at the Christian church. Normal lesson at 3 p. m. Sabbath school lesson at 3:30.

WORK RESUMED—Work has been resumed on the new Y. M. C. A. building. Laborers are putting in the steel steps at the front entrance of the structure.

SATURDAY MARKET—The ladies of Grace church will hold their usual Saturday market this Saturday afternoon at 2:30 o'clock in the choir room of the church.

JEWISH COUNCIL—The council of Jewish women will meet Sunday afternoon at 3 o'clock in Knights of Pythias hall. All members present are urged to attend.

COLLEGE LECTURE—Rev. E. Evans Carrington lectures yesterday to the social science class at Colorado college on "Modern Philanthropy: Its Objects and Methods."

PURCHASED NEW HOME—Sheriff-elect W. R. Gilbert has purchased the property at No. 1406 Lincoln avenue from Guy B. Hinckley for a new home. The consideration was $3,000.

TO REVIEW "THE CRISIS"—The Woman's club of the Second Presbyterian church will meet this afternoon at the church. Miss McDonald will review "The Crisis." The public is invited.

DANCE TONIGHT—C. E. Cox will give one of the popular bi-weekly dances at Weber hall. Fink's orchestra has been engaged. These dances are given every Monday and Saturday nights.

SUPERINTENDENTS—At the regular meeting of the Sunday School Superintendents' association, to be held next Tuesday evening at the First Christian church, the topic of "How to Secure Attendance and Hold It," will be discussed.

PROF. PARSONS' NEW LECTURE—Prof. Edward S. Parsons will deliver his second lecture in the university extension course of Colorado college in Perkins auditorium next Tuesday night. It will be a continuation of his first lecture on "The Isle of Wight."

G. A. R. MEETING—There will be a special meeting of the Colorado Springs post No. 22, G. A. R., tonight at K. P. hall in the De Graff building, for the purpose of installing the following officers: P. C., Jacob Chandler; S. V. C., [illegible] Wooley; J. V. C., A. C. Patterson; Adjutant, P. W. Blanchard; Q. M., J. H. Burt; Sergeant, S. R. Cone; Chaplain, S. H. Moss; O. D., R. F. Robinson; O. G. D., S. Kiser.

MR. MAY RESIGNS—Thomas A. May, who has been assistant local ticket agent for the Colorado & Southern for about 11 months, has resigned his position. M. S. Brown, who has been [illegible] of the road, will take Mr. May's place on until the successor is appointed. He was last seen [illegible] Mr. May's resignation and [illegible] Mr. Jacobs will leave for California during the latter part of next week.

DEVELOPMENTS ENTERTAINING SCHLEY

Chicago, Jan. 10.—At a meeting of the Hamilton club today details of the entertainment of Admiral Schley during his visit to Chicago January 25, 26 and 27 were worked out.

The features of the program arranged are a banquet on the night of the 25th and a public reception on the afternoon of the 27th. Sunday the 26th, the admiral will attend church and give up the remainder of the day to rest. A committee will meet the admiral on the train and escort him into the city. At the auditorium annex he will occupy what is known as the presidential suite. On his visits to Chicago, this suite of rooms was always occupied by the late President McKinley.

The banquet will be held in the massive banquet hall of the auditorium and it is announced that the number of guests will be limited strictly to the seating capacity of the tables. The set program of speakers, aside from Admiral Schley, follows:

E. W. Price, president of the Maryland society of Chicago, "Maryland."

Hon. Carl E. Carr of Gloucester, Va., former minister to Copenhagen, "Achievements of the American Navy."

Fred A. Busby, former president of the Hamilton club, "Our Club and Its Guests."

E. A. Munger, president of the Hamilton club, will be toastmaster.

The program has been made brief in order to allow for impromptu speeches.

Monday the admiral will visit the Winfield Scott Schley school and meet school children and members of the board of education. The public reception which follows this visit will be held in the parlors of the Auditorium.

A magnificent souvenir of the banquet will be placed at each plate. It will be a bas relief showing the admiral's head and shoulders on a background of the United States flag. It will be inscribed, "Follow the Flag."

REPUTATION OF THE REPUBLIC OF PARAGUAY

By Associated Press.

Buenos Ayres, Jan. 10, via Galveston.—The rumors circulated here yesterday of a revolution in the Republic of Paraguay turn out to be well-founded. The revolution which broke out at Asunsion, the capital, was caused by the question of the presidential succession, the term of President Aceval expiring in November of this year.

The revolutionary junta was composed of General Caballero, General Alober, Colonel J. A. Escurra, the minister of war; Senor Marro, a cabinet minister and Senator Prestas.

President Aceval resigned the presidency and congress accepted his resignation.

A collision occurred in the chamber of deputies during which Senator Facundo Insfran, president of the hygienic council, was killed, and General Caballero, Senators Migue and Corbalan and Deputy Fernando Carreras, were severely wounded.

The congress of Paraguay has placed the reins of government in the hands of the vice president, Senor Hector Carvallo.

Great excitement prevails at Asuncion.

—SHOOTING AFFRAY HERE—

By Associated Press.

Salt Lake, Jan. 10.—Jimmy Young of Spokane knocked out Mexican Pete Everett in the thirteenth round of a scheduled 20 round bout at the Salt Lake athletic club tonight. Burns was in superb condition, which won him the fight, as he was badly punished in the first three rounds. Everett, fat and short winded, was knocked down twice in the ninth round and once in the eleventh and twelfth.

DISPATCHES ENGAGED IN WAR DANCES

By Associated Press.

Butte, Mont., Jan. 10.—A special to the Miner from Forsythe says further word has been received giving the details of trouble among the Cheyenne Indians at the Lame Deer agency. It appears that Indian White, after refusing to obey the summons of the post agent, opened fire upon the posse sent to arrest him, shot one of the Indian policemen and then killed himself. Out of respect for the dead brave the wife and also the daughter committed suicide. This tragedy caused the greatest excitement among the Cheyennes. There is one troop of cavalry stationed at the Lame Deer agency and reinforcements have been sent for. There is no direct method of communication with the agency and information is difficult to obtain. The stage driver who arrived at Forsythe tonight brought word that the Cheyennes were still troublesome and that the braves of the tribe were conducting their war dances.

By Associated Press.

Butte, Mont., Jan. 10.—Troop E, Thirteenth United States cavalry this morning left Fort Keough for the Lame Deer agency. The troop is under command of Captain Romaine and Lieutenant Baker. Word from the detachment on duty at the agency says that the Indian, White, who is said to have caused all the present disturbances, was suspected of killing beef illegally and it was for that offense he was summoned by the agent in charge of the post.

ESCAPED FROM KIDNAPER.

By Associated Press.

Santa Fe, N. M., Jan. 10.—The New Mexican received a dispatch tonight saying that Mayme Yoast, the pretty 13-year-old girl who disappeared mysteriously in broad day light from the agricultural college at Mesilla Park has returned home and asserts that she had been kidnaped, drugged and when she awoke found herself in the country by an irrigation ditch, while her kidnaper, a strange man, was fixing his carriage. It was quite dark and she allowed herself to slide into the ditch thus escaping. She returned home footsore and still suffering from the effects of the drug.

MEXICAN RAILWAYS.

By Associated Press.

Laredo, Tex., Jan. 10.—A Monterey, Mex., special says:

It is announced that the consolidation of the Mexican National and the Mexican International railways will be consummated and both properties placed under one management not later than June 1 of this year.

The Mexican International railway is now controlled by Speyer of New York. This consolidation, if accomplished, probably will mean a fight with those in control of the Mexican Central for railroad supremacy in Mexico.

CONGRESS OF MOTHERS.

By Associated Press.

Washington, Jan. 10.—An interesting program is being prepared for the sixth annual convention of the National Congress of Mothers which will be held in the First Baptist church in this city February 25 to 28. Among the speakers will be Professor Charman Davis of Indiana university. His theme will be "The Scientific and Spiritual Development of the Child." Mrs. Mary S. Page of Chicago, will speak upon "The Educational Value of Play."

STATEHOOD BILLS.

By Associated Press.

Washington, Jan. 10.—The house committee on territories today fixed the 23d instant for hearings on the Oklahoma statehood bill; the 28th for the Arizona statehood bill, and February 7 for the New Mexico statehood bill.

The bill to create the territory of Jefferson out of the Indian territory was referred to a sub-committee headed by Mr. Knox of Massachusetts, and including Mr. Flynn, the delegate from Oklahoma.

INSTALLATION OF KNIGHTS OF PYTHIAS

Owing to some hitch in the proceedings the Knights of Pythias were unable to carry out their program of installing their officers last week and a postponement was made until last evening.

The officers were elected at the first meeting of the order in December and are now as follows: C. F. Monroe, chancellor commander; A. D. McRae, prelate; Jesse Jackson, master-at-arms; C. F. Gelson, master workman; Dan Colbert, master of finance; James Murphy, keeper of records and seals; O. B. Bennett, master of exchequer; Harry Moyer, inner guard, and J. P. Bates, outer guard. Justice Bates was the former chancellor commander.

PLANS COMPLETED FOR NEW BUSINESS BLOCK

The plans for William McIntosh's new business block have been finished and are in the hands of the architect, G. M. Bryson of Colorado Springs. The building will be two stories high and will be constructed of Milwaukee white pressed brick. It will have a frontage of 60 feet and the first story will have three store rooms. The second story will be devoted to the use of rooms and offices and a flat for Mr. McIntosh's residence. It is expected that the contract will be let in a few days.

A SURPRISE PARTY FOR MISS FAULKNER

Mrs. J. D. Faulkner gave a pleasant surprise party for her daughter, Miss Martha, Thursday evening at her home at Seventh and Colorado avenue. Progressive high five was the feature of the evening's entertainment, after which refreshments were served and dancing was indulged in.

Prizes were won by Miss Hazel Faulkner and Colorado Springs, Daisy Morgan, Edna Moats, Nellie Faulkner, Martha Faulkner, Mamie Wesley Moore, Robert Schneider, Sam Falk, Nordane Falk, John Conant, Paul McIntosh, Edgar Faulkner of Colorado Springs, James Williams, Arthur Morgan, W. H. Reiley, Tom Cass, Howard Sherman and Orman Johnson.

—SKIPPED EAST—

The remains of Henry M. Thompson, who died Wednesday night, will be sent out this morning to Norton, Canada, where the deceased's brothers and sisters reside. No funeral services will be held in this city.

The Distinctive Value

of Syrup of Figs is one to its pleasant form and perfect freedom from every objectionable quality or substance and to the fact that it acts gently and truly as a laxative, without in any way disturbing the natural functions. The requisite knowledge of what a laxative should be and of the best means for its production enable the California Fig Syrup Co. to supply the general demand for a laxative, simple and wholesome in its nature and truly beneficial in its effects, a laxative which acts pleasantly and leaves the internal organs in a naturally healthy condition and which does not weaken them.

To assist nature, when nature needs assistance, it is all important that the medicinal agents used should be of the best quality and of known value and Syrup of Figs possesses this great advantage over all other remedies, that it does not weaken the organs on which it acts and therefore it promotes a healthful condition of the bowels and assists one in forming regular habits. Among its many excellent qualities may be mentioned its perfect safety, in all cases requiring a laxative, every one to use, or its mother, the maiden, or the wife, the invalid, or the robust man.

Syrup of Figs is well known to be a combination of the laxative principles of plants, which act most beneficially, with pleasant aromatic fluids and the juice of figs, agreeable and refreshing to the taste and acceptable to the system, when its gentle cleansing is desired. The quality of Syrup of Figs is due not only to the excellence of the combination, but also to the original method of manufacture which ensures perfect purity and uniformity of product and it is therefore all important, in buying, in order to get its beneficial effects, to note the full name of the Company—California Fig Syrup Co.—printed on the front of every package.

NEWS NOTES FROM PUEBLO

The Business Men's Association Elects Directors—What Is Accomplished.

Pueblo Bureau
Colorado Springs Gazette

Pueblo, Jan. 10.—A meeting was held this evening at the apartments of the Pueblo Business Men's association in Central block at which directors were elected for the ensuing year. The board is an unusually strong one as the following at will show: J. Will Brown, J. G. Chapman, C. W. Crews, Wilford Dey, George J. Dinbaugh, W. G. Fraser, William Howe, George E. King, O. W. Malaby, S. J. Meston, L. P. Moses, A. A. Pierce, C. S. Schmict, A. Sonnenborn, S. D. Trimble, L. J. Tyson, Asbury White.

President Dey's remarks, while extensive, were to the point. They were received with the consideration and applause which they undoubtedly deserved. The reports of the secretary and treasurer were full and complete in every detail. The paper submitted by Secretary John Larkin covered a large range of facts and figures, of which the following is an extract:

"In reviewing the work for the year 1901, we find that the association has covered a vast variety of subjects. Many inquiries have been received from worthy men in different parts of this nation, on all matters pertaining to industries, the latest information has been supplied and as a result of our investigation, we are encouraged to believe that Pueblo will see several new industries during 1902, embracing various branches in the iron, wood, clay, sand, oil and wool lines. The new industries that have located and intend doing business in or near Pueblo during the year are several oil companies, new stock yards, steel wagon company, two new brick companies, a match factory, a macaroni factory. All of these companies have more or less Pueblo capital identified in the enterprises, and right here we wish to add a personal opinion, that our citizens should take stock in every industry that wishes to locate here, if upon investigation they promise to be dividend payers. We should encourage the earlier laborers of Pueblo to identify themselves in these new industries, even if only in a small way, for in treating the variety of industries, one better appreciates the opportunities of Pueblo realizing a very desirable class of citizens. Many there are who look down on some of the very large industrial plants, as a well established fact that these undertakings make poor citizens, as it seems the number of employees are the less humanity or labor feeling.

During the past year there have been no new industrial enterprises of the first magnitude, but the work of the industrial agent has been considerably lightened, it seems to indicate, by the preliminary work done by the Pueblo Business Men's association. The work has been in the meantime, but the work that has been under consideration may be summed up in the following: Pueblo's chance for the capital seeking of Colorado, for the sale of securities, bring attention to the fact that would be interested, prospective dividends, land, buildings and many other inquiries which have been answered as fully as it was possible, embrace wire works, window glass, brick of all kinds, pottery and all classes of clay, electric elevators, hot water heaters, hot air heaters, mining machinery, ice and cold storage, roofing, cement, all sorts of stock yards, cigars, boxes, knit goods, ammunition, shirt and overalls, matches, threshing machines, threshing cylinders, stoves and ranges, woven wire cloth, granite, a million tons of sand, cement and copper, beet sugar, soap, iron beds, plows and agricultural implements. In addition to the above correspondence has been kept with eastern and western people on business openings, truck and other classes of farm, ranch, real estate, climatic conditions, railroads, smelters, professions, opportunities, etc. It has been an invariable rule not to encourage by correspondence other than in central manufacturing, believing that those engaged in commercial and professional lines in Pueblo are abundantly able to handle the business of the city. When anyone came to our city and asked questions, it has been our policy to tell the truth just as we understand the conditions to be.

During the year 2,000 pieces of various kinds of literature have been mailed or given out from the rooms. From many sources inquiries have come from this manner of advertising. From a conservative estimate, not officially kept, however, there have been an average of 50 people who have visited the rooms daily during the past six months, while the telephone gets average 75 a day. This gives some fair idea of the volume of the work that the association is doing for the benefit, not entirely for its members, but for every business man, every professional man, every real estate owner and for every wage earner in Pueblo. Whether it is appreciated, as best evidenced by the membership of the association which should have 500 members to help the work along, instead of a few over 200 members who so nobly put up their money and in many cases much time. The city may grow larger and its people wealthier and happy. The association is encouraged, however, in believing that when our citizens understand more thoroughly what is being accomplished even with the limited funds from now on the membership will rapidly increase. Judging from remarks made by outside visitors, the Pueblo Business Men's association is much better equipped in the matter of rooms than any city in the country of even double our population. The rooms are open for the benefit of the members and their friends every day and evening and it is a very convenient place for an interchange of ideas and to get better acquainted, which should result to the mutual advantage of all. It is only a question of a short time when additional rooms must be had to accommodate the growing business of the association and its members."

The newly elected board will meet on next Tuesday night to elect officers for the ensuing year.

The two Dallas Las Animas street railway lines are shakeaway. A decree has been rendered by the U. S. circuit court from the eastern district of the United States office stating that the temporary receiver of same, made by the court January 20, 1901, for the properties of the Las Animas street railway in Colorado, is hereby removed under the authority of the decree of the interior dated December 28, 1901.

The railway system is about 2½ miles long in the western Las Animas county, Colo., and are some rare vacations [illegible] the new order [illegible] the disappointment of another [illegible] the two [illegible] to be [illegible] Pueblo [illegible] Colorado Springs [illegible] Colorado Springs [illegible] Colorado Springs

AN ASPIRING INDUSTRIAL REVIEW.

Springfield (Mass.) Republican.

The New Year issues of the Salt Lake Tribune, with its 64 pages, of the Colorado Springs Gazette, 56 pages, the Rocky Mountain News, 48 pages, and the Denver Republican, 40 pages, bring their individual stories of the great material prosperity of that thriving part of the country. A western newspaper publisher throws into the task of getting out a memorial edition an earnestness of purpose and a vividness of ink and color somewhat startling to his eastern reader. The year just past was an important one to the west, and the material at hand for an inspiring industrial review was ample.

RAILWAY IMPROVEMENTS.

For many years the American people were content to measure their progress in railways by the number of miles added during the year. The vast extent of our continent, the distances that separated the various states, the richness and the diversity of their products and material resources and the enterprising nature of our people combined to give the American nation the lead as railway builders. But at first all other matters were subordinate to getting railway communication, while as the varied elements that contribute towards comfort, safety and speed came as a secondary consideration.

In 1851 the railway mileage in Great Britain was 8,038, while that of the United States was 16,720. Forty-two years later the railway mileage of Great Britain had increased 270 per cent to a total of 21,700 miles. In the same period the mileage of the United States had increased 2,034 per cent, or to a total of 71,678 miles. From June 30, 1892, to June 30, 1893, there were built in the United States nearly 4,000 miles of railroad, which in no year after that up to 1901 has there been but more than 2,000 miles. There has, however, been a most marked increase in railway comfort, speed and safety, and also in the ability of the railroads to carry freight and passengers at a minimum cost. Recent statistics show that the average charge per ton per mile on all American railroads for all classes of freights now less than three quarters of a cent, and for the eastern trunk lines alone it is about one half cent per ton per mile. In Great Britain the average charge per ton per mile is 2 2-10 cents, in France 2 2-10, in Germany 1 6-10 and in Russia 2 4-10 cents per ton per mile. These figures are only made possible by most improved construction, equipment and organization. They involve the elimination of curves and heavy grades, the strengthening of bridges and rails, the use of locomotives and cars of the most improved construction and of mammoth proportions, the running of long trains at a minimum cost, and, in general, the perfecting of organization so that all charges of all kinds are reduced to a minimum.

In many parts of the United States the mileage of the railroads has nearly reached a maximum. There is a certain mile beyond which it is not profitable to go, and in a great many of the states railway construction in the future will be limited to the extension, the growth of the American railway system in the future will be shown more by the improvements upon lines already built than by the construction of new ones. For instance, we are informed that the Santa Fe & Colorado system will spend during 1902 $50,000,000 in addition to $50,000,000 that has been spent within the past year. The Pennsylvania railroad contemplates an expenditure for betterments and new terminals of nearly $200,000,000. Other roads, eastern and western, are also laying out their plans for large improvements of their roadbeds and equipments. The Union Pacific engaged largely in this work last year, as also did the Santa Fe. The Rio Grande railroad has been for several years past almost constantly at work strengthening its line, strengthening its bridges and putting down new and heavier rails in place of the old ones.

It is not as easy for the statisticians to take account of these improvements as to reckon the new miles of railway added to the grand total for each year, but at the present time a far greater amount of money is being spent in making the railroads better than in making them longer.

In no country of the world are passengers carried so cheaply, so rapidly, so comfortably and so safely as they are in the United States, and the millions of dollars that are now being spent in railway improvements will show still more marked results along these lines in the future.

DISCUSSING THE TELEPHONE SITUATION.

THE PEOPLE of Colorado Springs have again shown their conservatism and their good sense in the discussion that has arisen upon the proposition to establish a competitive telephone system in this city. Public opinion almost unanimously indorses the action of the city council in appointing a committee to investigate the matter and the editorials in the Gazette are approved almost without a dissenting voice by the people.

The situation is simply this: The people of Colorado Springs want the best possible telephone service at the lowest possible rates. They realize that the Colorado Telephone company is giving good service; that its automatic instruments are much superior to the magneto style commonly in use elsewhere; that the wires established here add very greatly to the clearness of conversation; that the switchboards and other necessary apparatus, much of which is protected by patents and can be used only by the telephone companies, are almost indispensable to satisfactory telephone results; that the Colorado Telephone company has extended its wires to nearly every important city and town in the state, and that the users of a new system would be shut off from all outside communication. They appreciate, too, that the introduction of a new telephone system in this city means in the case of most of the business and professional men of the city the payment of rentals to two companies instead of to one, and the probability that the combined charges would be greater than those they are now paying without any corresponding benefit. Further than that, a large number of Colorado Springs people, and especially those who have had experience with competitive systems in other cities, know that cheap telephone service is most certainly means poor telephone service, and they prefer to pay a reasonable sum for good service rather than to pay less for service that is not good at all.

But this is not all of the story. There is a wide spread feeling in Colorado Springs that the people of this city are paying too much for the use of their telephones, and more than is warranted by the circumstances of the case and the amount of business done by the telephone company. This may or may not be true, but it is certain that public sentiment is strongly in favor of an honest investigation for the purpose of determining whether we are paying more for the telephones than we ought to do, or more than is being charged in other cities under similar circumstances. The feeling is also general that at the time the franchise was granted to the Colorado Telephone company, proper provision was not made for securing the city's interests, and that a request for a reasonable number of free telephones for use in the city business would not be unreasonable under the present circumstances.

The Gazette trusts that the council committee will do the work assigned to it in a spirit of impartiality and fairness. It is not the intention or desire of our people to ask or to insist upon anything unreasonable or to exact from any corporation a penalty for doing business in this city and serving the convenience of the people. We believe that a reasonable committee, acting in a reasonable way, will be met in the same spirit, and that such a committee reporting to the people the facts in the case as they find them will be supported by public sentiment. Under such circumstances it is reasonable to hope that the entire matter may be settled in a way that will be accurate and satisfactory to all concerned.

A MEXICAN VIEW OF DIVORCE.

SENOR ACOSTA, the Mexican consul at Kansas City, says there are very few divorces in his country, and explains the reason:

They are almost unknown in our country. We allow divorces for but one reason, infidelity, and in that instance the proof must be beyond all power of refutation. The consequence is that we seldom hear of a divorce. Of course we allow legal separations, but nobody asks for them. If such were the law here few would apply for divorce with your wide-spread decrees. A recapitulation of the number of divorces who have remarried within six months after the rendition of a decree would illustrate what I contend: Once remove the prospective second affair and there is no temptation for the first affair. In other words, in my country we say to a man and to a woman, marry, and you intends to get along together, because you will have to. The result is a growing population with continuous families, but divorce decrees cause national amazement.

There is matter in these remarks that is worth thinking about.

A NICARAGUAN VICTORY.

The passage of the Depew bill in the house by an almost unanimous vote does not insure its adoption by the senate without amendment. Indeed it has been expected that the strength of the opposition would appear in the senate, and the house was regarded as almost certain to pass the bill.

The tremendous majority in favor of the Nicaragua route was a surprise both to the friends and the opponents of the measure and there is no doubt that the result of the vote has materially enhanced the chances of its final success.

It looks very much as though the day of Panama had passed, and as though the schemes of those interested in blocking the construction of the canal were to prove unavailing.

There are some ideas that work very much better one way than the other. For instance, a few years ago it was proposed to have the government loan money to farmers at 2 per cent a year, and it was argued that the adoption of this measure was sufficient to insure the prosperity of the whole country.

The Republican party went to work upon the same idea from the other end. It established prosperity by means of a protective tariff and scientific administration of national affairs, and as a result the farmers are now lending money to the government at 2 per cent or less.

While the great majority of immigrants to this country continue to come from southern and southeastern Europe, recently published statistics show that we are still receiving a large number from England, Scotland and Ireland. During the year 1901, 302,848 immigrants left the United Kingdom for places outside of Europe, and of this number 195,888 came to the United States. This was an increase over the former year of 5,497. The further fact is interesting that only 43,973 British immigrants went to Canada in 1901, and that this was 7,000 less than for the preceding year.

Some Englishmen seem to be interested in speculating whether the United States will ever annex Great Britain, and are casting sidelong glances upon George III., because the capital of the United States is now located at Washington, D. C. The American eagle is that John Bull is able to care for himself for some years to come, yet, and after that a protectorate might possibly be in order. As for annexation, that really would be contrary to the Monroe doctrine.

The fight between British, Russians and Americans at Newchwang was one of those unfortunate incidents that are likely to happen where soldiers or sailors of different nationalities meet in remote places, and it was complicated by the usual amount of liquor or officials. There is no reason to believe that it will have any serious results to involve the governments of the three nations.

A million dollars, it is said, has been offered to Andrew Carnegie for an experiment in the cure of consumption. Such experiments are costly and the money comes from wealth. But the cure of tuberculosis from the dry air, altitude and sunshine of Colorado is no experiment, and is attested by thousands of men and women who have been saved thereby from death.

The Boston Globe says there is no voice on the democratic side of either branch of congress that can command the attention of the country. And that looks good for Democracy. If that party will only keep at it long enough the people may forget its past follies and blunders.

A farmer on Riggs is reported from Chicago. This is the latest effort to square the circle.

FROM THE PRESS OF THE NATION.

Hangings and Lynchings of 1901.

(Chicago Tribune.)

The dark records of hanging and lynching are made up for the year 1901. The former shows a gleam of encouragement, the latter in some respects is distinctly discouraging. There were 115 legal executions during the year, one less than those during 1900. Of those executed 71 were negroes and 44 whites. It is somewhat significant that, as compared with 1900, the number of negroes is increased 13 and the number of whites decreased 12. The figures for 1900 being negroes, 58; whites, 60. The south had 82 of the executions and the north 26, the ratio being about the same as last year, when the figures were 80 in the south and 39 in the north. The crimes which led up to these executions were as follows: Murder, 107; criminal assault, 8; attempted criminal assault, 1; train robbery, 1. In 1900 only five were hanged for criminal assault.

This increase in executions for criminal assault would apparently indicate that this crime, which is falsely assigned as "the customary crime" in the south, is coming more and more to be punished by the law instead of by the mob, but the increase of lynching for the year makes it difficult to determine this with absolute correctness.

The lynchings for the year number 135, as compared with 115 in 1900, an increase of 20. Of these 121 occurred in the south and 14 in the north, as compared with 107 in the south and 8 in the north in 1900, an increase which is not creditable to the five northern states. California, Idaho, Montana, Kansas and Indiana. The number of negroes lynched in 1901 was 107, the same number as in 1900. Besides these one Indian and one Chinaman were victims. Curiously enough the principal crimes which led to these lynchings are almost the same in the two years, being 59 for murder in 1901 and 59 for murder in 1900, 19 for criminal assault in 1901 and 18 for criminal assault in 1900. The six southern states which have the largest number of mob murders are: Mississippi, 16; Louisiana, 15; Alabama, 15; Georgia, 11; Tennessee, 12; Texas, 11. Three of these states, however, show improvement. Mississippi having 4, Louisiana 5, and Georgia 2 less than last year, but Alabama has increased 7, Tennessee 5, and Texas 7. Discouraging as the figures appear, there are many causes at work in the south which promise improvement. It is not encouraging that the number of lynchings in the north should have increased as much.

A Measure of Prosperity.

(Philadelphia Press.)

The more complete the reports become of the manner in which Christmas of last week was celebrated, the more striking are the evidences of the great prosperity the country is now enjoying. It gave a measure of good times such as could be had in no other way.

One of the most gratifying facts in connection with this is its universality. Every part of the country appears to have had its share of the good things. Such a general distribution of gifts was never witnessed before. Not only the populous centers but the more remote neighborhoods were included. It sounds large to hear that Wall street brokers and bankers gave their employes $2,500,000 in Christmas gifts and that the holiday sales on State street, Chicago, alone, run up nearly $2,000,000. But these are only two centers and stand for less than one-twelfth of the population of the country. In other places the sales and gifts were as large in proportion. Christmas in 1900 was considered a record-breaker, but the first Christmas of the new century surpasser it in every respect.

Another feature of this Christmas, and perhaps the most gratifying of all, was the permanent character of many of the gifts paid. These came in the shape of increased wages or some substantial benefit the good results of which will continue in the future. There was also an overflowing charity for the needy, showing that in abundance those in want had not been neglected. It is encouraging also to hear of so many gifts from employes to employers, proving the growing harmony between capital and labor. On the whole the Christmas of 1901 is a season of gladness that will long be remembered.

Harvard's "Peanut" Professor.

Some years ago a young Russian student, Leo Wiener by name, was compelled to flee from the czar's empire in order to escape banishment to Siberia. He tramped through Germany and France, to Spain, where he took a ship for Cuba, sailing thence to New Orleans. He came of a series of barnstorms found him a penniless wanderer in the streets of Kansas City. There, with the help of men in his own race, he set up a little wooden shack of fruit which he sold to passersby.

Each night, when the day's work was done, he has gone to the public library, there to pore over some Russian volume until the lights were put out. The library attaches soon grew familiar with the shabby, self-absorbed foreigner who never missed a night, and through them Wiener was brought to the notice of the superintendent of public schools. An interview proved to the astonished superintendent, that the friendless peddler was a master of Greek and Latin and several modern languages. "Call upon me," said he, "from time to time. I think I can obtain for you a position in which you will be enabled to give to others the benefit of your knowledge."

Wiener went back to his peanuts and bananas with a glad heart, and ere long he was informed that a position as a teacher had been obtained for him in the little college at Oceana, Mo. After a season at Oceana he removed to Kansas City, to teach languages in the Central high school. Six years after he was called to a chair in the University of Missouri at Columbia, and, when Harvard decided to establish a department of Russian language and literature, he was placed at the head. This chair he continues to occupy with marked success.—(Success.

Carelessness in Women's Dress.

I see no harm in a woman's taking a part once in a while in a game of golf or any other outdoor exercise that befits her station. She is not to be pampered like a plant, and never allowed the results derived from fresh air and moderate exercise, any proper outdoor pursuit should be encouraged as an occasional recreation, but as a regular avocation it must be condemned. For pleasures that become serious are no longer mere recreation, but serious occupations.—(January Ladies' Home Journal.

CLOTHIERS AND FURNISHERS.

Twelve Candidates Seek Cadetship

Examinations for entrance into the West Point Military academy for candidates from this congressional district were begun yesterday at the High school and will be continued today. Twelve expectant young men are undergoing the tests, and each is hoping he will be the lucky one chosen for appointment by Congressman Bell.

The highest average in the examinations will entitle the holder to consideration for the next vacancy from this district for entrance into the national military academy. Yesterday the studies in which examinations were held were algebra, arithmetic, physiology, geography, United States history. Today the examinations will be in geometry, general history, English grammar, penmanship, spelling, reading and literature and composition.

One of the questions in the examination of United States history that seemed puzzling to the young men was: "Why did the civilized nations in the 14th and 15th centuries dispose of newly discovered countries?" There was much wise wrinkling of brows and studious anxiety before the question was finally answered. One young man disposed of it by saying that the nations gave such land to the country which just discovered it. Another, who had probably been a reader of Democratic campaign literature, said that the new nations took possession of the country, made slaves of the people, and then established a military government.

The young men who are taking the examination are Wheaton Bodie, Judson Bennett, Willis Lawrence, Harry Zimmerman, Will Stofiell, Will J. Johnson, P. H. Jenkins, Lee Cooper, Orth Randolph, John H. Booth of Colorado Springs, E. C. Carstarphen of Pueblo, and Fred Twitchell of Canon City. Superintendent Dietrich of the city schools, Superintendent Lee E. Grafton of Colorado City schools, and Principal Mason of the High school, are conducting the examinations.

Program Announced for Musical Festival

Colorado Springs is placed in the track with Denver and San Francisco in the national tour of the Chicago Symphony orchestra and should the experiment prove a success as well as the establishment of a festival here, we will benefit in this city.

The Chicago Symphony orchestra, under the direction of Rosenbecker, will give two and perhaps three concerts in this city January 21 and 22 at the Opera house. The foremost musical people in this city are promoting the scheme of the organization of a festival here. Should the results justify the expenses, the people interested in the concert will find ample reward for their efforts in this undertaking.

There are 50 musicians in the orchestra, with four soloists, Madame Marie Linne, the celebrated soprano singer, E. C. Towne, formerly with Walter Damrosch, Jan Van Cordt, the Dutch violinist, and Franz Wagner, the cello soloist. After the concert a "Wagner night" will be given by a local chorus of 300 voices with Mr. E. C. Towne as tenor soloist. The Chicago Symphony orchestra will make the accompaniment.

The program on the first night will be as follows:

Overture to Tannhauser . . . Wagner
Concerto . . . Wieniawski
Mr. Van Cordt.

Slavonic Dances Nos. 1 and 3, from first set, Op. 46 . . . Dvorak
Aria—"La Gioconda" . . . Ponchielli
Mr. Van Cordt.

Symphony No. 4 in G, 1st and 2d movements . . . Dvorak
World's Fair Grand March . . . Sousa
Ride of the Valkyries . . . Wagner
Aria, "Queen of Sheba" . . . Gounod
Mme. Linne.

Waltz, "Voices from the South" . . . Strauss
Duet, "Romeo and Juliet" . . . Gounod
Mme. Linne and Mr. Towne.

Overture, "Sig." . . . Tschikowsky

On the second night the program will be:

Overture to Fra Diavolo . . . Auber
Aria, "Herbstlied" . . . Mosenthal
Blue Danube . . . Strauss
Concerto . . . Saint-Saens
Mr. Franz Wagner.

Invitation to the Dance . . . Weber
March . . . Wagner
Bridal's Wedding Procession . . . Wagner
Choruses for voices with Symphony orchestra accompaniment.

It is possible that a matinee may be given on one of the dates announced for the concerts. The event is much anticipated, and the music in musical circles promises to be the most interesting of the season for the winter. The Symphony orchestra is making a tour of the west from Chicago to the coast, and the only cities to enjoy an extensive program are Colorado Springs, Denver and San Francisco.

The first rehearsal of the festival chorus will be held this evening at 8 o'clock at Perkins hall.

Medical Student in a Predicament

A medical student named Henry MacIlvray of Brooklyn, New York, was arrested in the Y. M. C. A. rooms in Denver Thursday night on a charge of obtaining money under false pretenses. The man was arrested at the instance of Secretary Dolmer, who received the request that he be held from Rev. C. E. Wilcox of this city.

It seems that several days ago MacIlvray informed Rev. W. H. W. Boyle to indorse a draft for $30 drawn on his brother-in-law, Rev. Dr. Wooley of Brooklyn, claiming that he had already had an indorsement of a draft from Dr. Wilcox and that the authorities at Denver had said that in the absence of Dr. Wilcox, Dr. Boyle's indorsement would be just as good. The draft came back dishonored and Dr. Boyle and Dr. Wilcox took steps to have him arrested.

On being arrested the young man asserted his innocence of intention of wrongdoing and pleaded for time in which to telegraph his brother-in-law in Brooklyn. This was granted and in response to a telegram the reply came, "MacIlvray more in need of physician than officer. Head no right." Under these circumstances Dr. Boyle felt sure that the money for the draft would be returned by MacIlvray's relative and he did not feel like pressing the charge.

MacIlvray is accompanied by his class personal friend, E. S. Purple, who was arrested at the same time because he was with MacIlvray. Both were released.

Railroad Men Make Trip on Short Line

The beauties of the scenery along the Short Line were revealed for the first time yesterday to several of the most prominent railroad men of the west. Among a party which made a special trip over the Fine Scenic Route were Paul Morton, second vice president of the Santa Fe; F. S. Shonts, president of the Illinois, Iowa & Indiana railway; J. E. Gorman, general freight agent of the Santa Fe, and J. V. Parker, division superintendent of the Santa Fe at Pueblo. Presiding Hewbert, General Manager A. C. Ridgway and Traffic Manager S. . Henry of the Short Line accompanied the visitors on a trip to Cripple Creek and return.

The visitors arrived here from the east yesterday morning over the Santa Fe on Mr. Morton's private car. This car with the visitors and Short Line officials as passengers, was taken up to Cripple Creek in the morning, and the return trip was made in the afternoon. All the railroad men were delighted with the trip. The party left last night for Denver.

LIQUIRINE should be used to enrich and purify the blood; it cures all forms of blood disorders, is especially useful in fevers, skin eruptions, boils, pimples, black heads, scrofula, salt rheum and every form of blood impurity. It is a safe and effectual cure. Price 50 cents. Hickey-Arcularius Drug Co.

Local Capitalists in Another Oil Company

A number of Colorado Springs men are interested in the Boulder Mining, Oil & Gas company of Wyoming, which filed a copy of its articles of incorporation yesterday in the office of the county clerk. A branch office of the company will be established in this city, and another in Boulder, near which town the corporation proposes to develop oil property.

The company has a capitalization of $12,500. The directors for the first year are L. P. Schneider, W. L. Beery, George D. Riddel, E. L. McMahan, C. H. Arkwright, L. R. Neff and H. . Matthews.

Mr. Matthews, one of the directors, returned to Colorado Springs yesterday from Boulder, where the Headlight company made a rich strike at its new well last Sunday. Mr. Matthews brought with him a sample of oil from the Headlight well. He said the well will produce 200 barrels of fine oil a day.

Pioneer Manufacturer on Modern Luxuries

Mr. George W. Leary, of Saginaw, Mich., is spending the month in this city before proceeding on his way to California. Mr. Leary is one of the pioneer furniture manufacturers in the east, having been one of the promoters of the first large factory of furniture in the state of Michigan. He is now retired, but quite naturally takes a great interest in the progress of this business.

"It is almost incomprehensible to us of this age of improvements to realize the miles advantages of the early settlers, and of the generation just before us. For instance, the manufacture of furniture by the quick processes of steam has been in vogue but 50 years," said Mr. Leary yesterday. "Previous to the period of machinery, all kinds of furniture was made by hand, with only the axe and saw as implements. Even machines and pins were hand made. An ordinary rocking chair was the work of two days' time. Now a man can turn out eight such chairs in the same period. This were made by hand, each pin being fitted separately, the heads being set afterwards.

"I remember when a paper of pins was a luxury, and a woman could make this quantity of pins last a year. Of course, prices were very much higher then, but it seems to me that people were just as happy and just as prosperous. We certainly have a great many more things nowadays, things which we consider necessities, which were then regarded as luxuries, but I do not know whether this condition imposes that we are any happier for these possessions."

Apollonian Club Holds Memorial Service

A memorial service in honor of Prof. P. S. Doudna, who died in this city January 6, 1900, was held by the Apollonian club of Colorado college last night.

The exercises were held in the club house on West Cache la Poudre street. Nearly the full membership of the club was present and there were a number of visitors including several young ladies and two members of the college faculty. Prof. Doudna was a member of the Apollonian club and guided that organization through its history. He has always been considered the noblest man who ever belonged to the club and the present members of the club still revere his memory.

The meeting was presided over by Harry L. Ross, president of the club. He briefly outlined the character of the meeting. Mr. H. L. McClintock was the first speaker of the evening and gave a brief biography of Prof. Doudna. Professor Florian Cajori, who knew Mr. Doudna intimately, spoke of his connection with the college. Mr. C. W. Weiser spoke of Mr. Doudna's personal characteristics. Mr. E. H. Carrington, of the club who was an Apollonian contemporary with Mr. Doudna, spoke of the latter's career as an Apollonian, telling the story of his work and aspirations for the club. All the addresses were delivered with earnestness and deep sympathy, for all the speakers knew Mr. Doudna personally.

The Apollonian octet rendered an appropriate selection beautifully, and the meeting was closed with prayer by Prof. Parsons.

HORSE FELL INTO AN OPEN DITCH

A man who was driving on Colorado avenue early last evening drove his horse into a ditch which was left open and near which no warning lights were placed.

The accident took place just after dusk while the team was passing along Colorado avenue in front of the Sheldon place, in the Rustic Home addition to Colorado City. It is said that the ditch in one which had been dug as the progress of the work which is being done by a local contractor who is working on the water extensions, and the excavation had been made between the railroad tracks. There were no lights to indicate that there was any danger and in crossing the tracks the horse fell in and the driver was pitched headlong out of the buggy.

Although somewhat shaken the driver picked himself up and was ready to go on. But not so with the horse. The horse was not a high school horse and he could not step high enough to get himself out of the predicament. He was a well-bred animal, but he had fallen low, and it took a block and tackle to raise him to his old station. It was found that no injury had resulted and it is probable that no damage suit will result from the neglect to call attention to the existence of the trench.

"SPECIMENS OF PRESBYTERIANS" TOOK PLACE OF LECTURE

The lecture course of the Second Presbyterian church was pleasantly varied last night by the rendition of a concert in place of the usual lecture. Mr. and Mrs. George Crampton, with Mr. Frank Ho Cleverly at the piano, gave "The Songs of All Nations," rendering the great national songs of sentiment of all the European nations and America.

When Mr. Crampton sang "Sunnee River," although every man, woman and child knew the old melody as well as they did their names, everybody applauded enthusiastically. The sweetly plaintive Tuscany air, "Nearest and Dearest," was sung by Mr. and Mrs. Crampton in a splendid manner. Altogether, the concert was an exceptional entertainment and added much to Mr. Crampton's popularity.

RAILWAY COMPANY WILL GRADE STREET

An arrangement was reached yesterday between Mr. W. S. Stratton and the county commissioners, by which the Colorado Springs & Suburban Railway company will change the location of its tracks on Colorado avenue between Colorado City and Adams' crossing, near Manitou. The tracks will be placed in the middle of the highway, and the railway company will grade the street to the tracks.

The change will be made as soon as possible. The distance covered by the change in the location of the tracks and the grading is a little over a mile. The street for that distance will be greatly improved by the change.

JANUARY DOCKET TO BE CALLED MONDAY

The docket for the January term of the district court will be called Monday morning by Judge Cunningham. Among the criminal cases are those against City Treasurer Hale and former City Clerk Smith.

Ira E. Johnson files a suit in the district court yesterday against M. Kinney and the Kinney-Duncan investment company, to recover $[illegible] alleged to be due on two promissory notes given by the defendants last November. One of the notes was for $100 and the other for $500, and both are alleged to be past due.

The fragile nerve and the growing child are strengthened by WYETH'S CREAM VERMIFUGE. It destroys worms, gets digestion at work, and restores the body. Price 25 cents. Hickey-Arcularius Drug Co.

Unequaled rates at Savoy. Free [illegible]

COMPLAINT AGAINST PRIVATE SEWER

Coroner Law was not filed yesterday that the body of an infant supposed to have been about seven months old, had been found by a plumber who had been cleaning out a private sewer on South Tejon street.

It was reported that the body of the child was in a bad state of decomposition and was dragged out by means of a wire and it was impossible on account of its condition to tell whether it had been placed in the sewer before or after its death. The house with which the sewer is connected is at present vacant and it was considered impossible to discover whether it was a case of infanticide or of the concealment of some other crime. The body was taken away and buried. Coroner Law did not deem it necessary to make any further investigation.

NORTH END W. C. T. U. MEETS THIS AFTERNOON

The North End W. C. T. U. union will meet at the home of Mrs. E. P. Root, 1125 North Nevada avenue this afternoon at 3 o'clock. Rev. Mr. Root will have charge of the devotional exercises and lead the discussion on "The Importance of Early Child Training."

Mrs. Ritchie will give a reading and music will be furnished by Miss Sanstedt and others. Every one is cordially invited, especially mothers. Members are requested to come prepared with suggestions for future work. Business meeting, 2:30 o'clock.

A Phenomenal Achievement of an American Industry.

The officer in charge of the Brewer's Revenue Department, upon expressing his New Year congratulations to Mr. Adolphus Busch, president of the Anheuser-Busch Brewing association, submitted to him a carefully compiled statement of the brewery's last year's output, showing the enormous sales of 1,006,957 barrels of beer, which netted the government an income of $1,501,818. Considering that in the birthplace of King Gambrinus, Austria and Bavaria, there are breweries that have been in existence for centuries and some, even in this country, which have been established more than a hundred years, whose output does not reach one-half of the above figure, the achievement is now remarkable, especially so since this record was made in less than 35 years and under the sole and continuous management of its present president.

Notice.

The Co-Operative Mutual Benefit association money . . . will be opened Monday at 8 p. m., January 22, at room 4, Gazette building. A committee will be appointed at that time to count the money.

All of them are en route from a visit to California. Mr. Austin, Sr., is a well-known mining man and has extensive properties in Cripple Creek and other parts of the state. He is an old friend of J. A. Hinchaugh and family.

THE "PRINCESS CHIC."

The character of the "Princess Chic," in Kirke La Shelle's and Julian Edwards' opera comique of that name, in which Maude Lillian Berri and company are to appear here shortly, is supposed to be the reigning sovereign of the Province of Normandy during the period of Louis XI of France. As drawn by Mr. La Shelle in his brette she is a sort of feminine D'Artagnan, a dashing, daring woman, fond of the hunt, very clever with the sword, something of a coquette, and, of course, the most beautiful and bewitching creature in the province. The libretto does not say that she can sing, but she can, and, in the Maude Lillian Berri version, she likes to sail upon the High C. In meeting all the requirements of so captivating but difficult a role, it is not surprising that Miss Berri has achieved the very great popularity that has come to her. "The Princess Chic" will be seen at the Opera house Monday evening.

Kirke La Shelle, librettist of "The Princess Chic" as well as proprietor of the company presenting this opera comique, claims that such a production should be liberally interspersed with fun, as a foil for its historical and literary interest. He has, therefore, wisely provided four comedians for this piece, in which Maude Lillian Berri is the prima donna. The laughter caused by these fun makers is invariably the result of scintillating dialogue and bright repartee rather than the usual buffoonery and slapstick comedy which characterizes similar productions.

THE ISABELLA DOLLARS

Suit for the Stockholders, Claiming the President Has Made Use of the Corporation—Stock Pass Book.

The opposition movement mailed the following circular last Thursday to all stockholders in the Isabella company:

Colorado Springs, Colo., Jan. 8, 1902.

To the Stockholders of the Isabella Gold Mining Company:

Four years ago Mr. Nelson B. Williams successfully appealed to the then stockholders of the Isabella company for their proxies on the plea that the former management of the company was not sufficiently "open and above board" with the stockholders. For about a year after his election to the presidency, every stockholder had full and free information as to the workings of the property. Then his policy suddenly changed.

The condition of the mines of the company commenced to improve and the value of its ore shipments increased. Yet the president repeatedly assured inquiring stockholders that the physical condition of the property had not changed. A large number of stockholders parted with their stock at less than its intrinsic value and at less than they would have sold it for had the president disclosed to them the facts which they had a right to know.

The officers and directors of the corporation are the trustees of all its stockholders, and each stockholder has the right to demand and receive from them full and exact information as to its affairs. No such information has been given to the Isabella stockholders by Mr. Williams. The few reports concerning the physical condition of the company's mines which have been issued, have all been meager and unsatisfactory, and today the great mass of stockholders know practically nothing as to the developments in the property. The laws of Colorado give each stockholder the absolute right to inspect the stock books of a corporation during the business hours of any day, but this right has been repeatedly denied to stockholders by Mr. Williams; and it was necessary for one of the undersigned to institute suit against him last week in order to secure the names of the stockholders for the purpose of sending out this letter to them.

We believe that the interests of all the stockholders demand that this policy cease. The affairs of the company should no longer be a mystery to any of its stockholders. It is not too much to say that confidence in the company and its mines can be restored only by a change in the personnel of its officers.

About a week ago Mr. Williams issued a circular letter in which he refers to the fact that the presidents of two of our banks were formerly on his board of directors. It is significant that his present board of directors consists of himself, his mine manager, his attorney and two clerks in his office. He also claims that he will not solicit the proxies of his fellow stockholders; yet has caused the secretary, at the company's expense, to send out requests to the stockholders for proxies for himself.

A new board of directors will be elected at the annual stockholders' meeting to be held on January 21, next. The undersigned, representing also many other stockholders who are desirous of a change in the management of the company, request you to unite with them in that effort, and sign and return the inclosed proxy to Mr. William Lennox or to such other person as you may select. If you have already given a proxy to Mr. Williams you have a right to revoke the same and can do so by signing the proxy and letter enclosed herewith.

If a majority of the stockholders unite with us in this effort, we will elect a board of directors composed of men who will inspire confidence in the company and who pledge themselves to give all stockholders full information concerning its condition and its properties, and whose experience in connection with other large producing Cripple Creek properties will be a guarantee of successful management.

William Lennox,
E. W. Giddings,
Louis R. Ehrich,
J. A. Sill,
Henry S. Hawks.

The present management is sending out, together with the circular published in these columns last Sunday, the following from a large stockholder:

Dear Sir:—The books of the Isabella Gold Mining company show you to be a stockholder in that corporation, and as such this letter is sent to you.

I am the largest stockholder in said company, owning and controlling more stock than any other ten persons; and, as you have been heretofore advised, there has been initiated at Colorado Springs a movement to oust the present management.

This movement was started by brokers on the floor of the local exchange at that place.

I have personally investigated the mine and its management. I have been extended every courtesy by all the present officers of the company. I believe that any legitimate holder of shares will receive the same treatment.

I find, upon investigation of the books and properties of the company, that a vast amount of work has been done in the development of the mining claims; no continuous ore bodies are opened in the mine at present from which any income beyond immediate expenses can be expected. I say this after the most careful investigation, and after many years practical experience in the working of mines.

I believe it is fatal to the best interests of the Isabella mines to change the management at the present time. I therefore urge upon you to join with me in support of Mr. Williams and his associates at the coming election.

Yours truly,
George N. Stone.

Dated at Chicago, Ill.

C. K. & N. OVERISSUE AMOUNTS TO 195,000 SHARES

The Total Amount Still 100,000 Shares, Which Amount Has Been Set Aside From the Company's Treasury to Make Good.

The following is the official report of the C. K. & N. overissue:

Colorado Springs, Colorado,
January 10, 1902.

To the Stockholders of the C. K. & N. Mining company and the Public:

Upon the death of the late secretary of the C. K. & N. Mining company the board of directors caused the stock books of the company to be examined by the Colorado Title and Trust company. The examination has been completed and it has been ascertained that there is a known overissue of stock amounting to 34,000 shares. In addition it has been found that 22,000 shares of stock have been issued from certificates which are not found with the books of the company. If the last named certificates have been turned in and canceled and are merely lost or misplaced, the new issue in lieu thereof is regular, but if the old certificates or any thereof are still outstanding, the overissue is increased to the amount of the old outstanding certificates.

The numbers of these old and missing certificates, with the names of the record holders and the number of shares represented thereby, are:

Certificate No.		Shares
[illegible]	B. S. Pepper	1,000
86	A. Heisel	5,000
159	Wm. A. Kruse	4,000
234	John W. Morrison	5,000
[illegible]	John W. Morrison	2,000
[illegible]	C. L. Webb	1,000
160	E. P. Welles	5,000
95	J. E. Hunter	2,000
28	Hughes & Leonard	2,000
	Total	27,000

The holder of any of the above certificates, if the same are outstanding, is requested to notify the company forthwith.

The certificates representing this so-called "overissue" are as the company is informed and believes, regular on their face and purport to be valid certificates, and are held by bona fide purchasers. The company has been advised by counsel that under these circumstances the company must protect such overissue or be liable to the holders thereof.

There is in the treasury of this company 163,000 shares. By resolution of the board of directors 104,000 shares of this treasury stock has been placed in a special account and will be used to validate and protect all overissued stock represented by outstanding certificates regular on their faces and in the hands of bona fide and innocent purchasers or holders. All such certificates when properly indorsed and presented for transfer, will be honored.

It appears from the company's books that certificates representing 8,000 shares of stock have been duly indorsed and canceled and no stock issued in lieu thereof. This stock will be transferred to the company's treasury and will reduce the net overissue to 85,000 shares with the possibility of still further reduction should it develop that all or a portion of the above named 27,000 shares has in fact been surrendered and canceled.

The present board of directors desire to say that all overissuing of stock occurred prior to its election and assuming control.

The books of the company will open January 18, 1902 at 3 p. m.

The C. K. & N. Mining Company,
By G. A. C. Duer, President.

Attest: H. Hutchinson,
Acting Secretary.

WILD HORSE EARNS $4,000 DAILY

Owing to an error in the article on the Wild Horse mine published in these columns yesterday morning, the output of the property was made to appear exceedingly small when it was the object to call attention to the splendid showing which the mine is making. Instead of producing 21,400 net per day, the production is $14,000 net per day, a showing which is corroborated by probably no another mine in Cripple Creek.

For over a week now the mine has been outputting at this rate, which is somewhat better than the property has averaging right along, but the showing warrants the belief that the property is capable of maintaining this rate if the management thinks best to produce that amount right along.

IMPORTANT NOTES FROM SILVERTON

Work Starts in Sunnyside Mine—Copper People Buying Into District—Last Year's Output $3,300,000.

Special to the Gazette.

Silverton, Colo., Jan. 10.—The Kendrick and Geiger Smelting company paid its dividend No. 2 of one cent per share, or $10,000, on the 30th. The smelter was started about a year ago, and will be on a much larger dividend-paying basis the coming season.

A phenomenal strike has recently been made in the Sunnyside mine. In crosscutting from the main vein, from which they have taken out their great bodies of ore and have reserves to last them years ahead, producing 100 tons a day, they intersected another body of quartz which, when opened, measures 40 feet in width. The whole body is a milling ore, and small streaks in it of very high-grade ore, and small bunches in which the metallic gold is plainly visible, samples of which assay from $10,000 to $20,000 per ton. Of course, this extremely high-grade ore is in very small bunches. In this way it is similar to the old vein, but they have been working so long. This is the character of the mines of the San Juan country. The veins are of great width of a milling and concentrating product.

The largest enterprise in the district is carried on by the smelter trust people, who bought the Stother or Silver Lake mines last summer at several millions of dollars. They have since bought the Titusville and Letter G vein for a distance of some three miles, and it is understood that they are to start a big tunnel in front of the town of Silverton to follow their vein to intersect the Silver Lake, and will eventually build a concentrating works for treating several thousand tons of ore per day on the banks of the Animas river in the town of Silverton.

The Calumet and Hecla copper people are buying into this district. They, some time ago, bought the Smuggler-Union at Telluride, which has produced millions of ore, and they recently purchased from Mr. Crook the North Star, one of the characteristic mines of the district that has produced probably a couple of millions of dollars.

The Gold King Consolidated in Cement creek pays a six per cent dividend on 25,000,000 besides doing extensive development work, and driving a deep tunnel which will greatly enhance the product the coming year.

The Henrietta and Lizzie mines of the Kendrick and Geiger smelting company are driving their adjoining extensively with never failing results. No. 4 level is in an ore body 40 feet of waste and the other three are similar in character. The mines have produced over 100,000 tons of ore above. The superintendent says that he will double the output of the mines by the new tunnel, work now is going forward.

It takes [illegible] It is a country of great big veins of mineral ore. The output of the mines immediately around the town of Silverton, all of which is either smelted in town or shipped through town, amounts in over $2,000,000 for the past year, with the prospect of a great increase for the coming year.

MINE NOTES AROUND TOWN

It is understood that another big Beacon hill consolidation is pending, which will involve a very large acreage. Particulars at this time are very vague, as those who are working on the deal are keeping it extremely secret; but some interesting information is expected about the matter in a short time. The consolidation will be one of the most important combinations of uncleaved ground yet made in camp, if it goes through according to the present plans.

SHIPMENTS MADE FROM SEVERAL LARGE MINES.

Eighteen sets of lessees are now operating on the estate of the Anaconda company on Gold hill, where a little over a year ago not a miner was working. Of this number, 12 leasing companies or partnerships are producing steadily. The principal lease, which is shipping almost every day, is that of Ogilvie & Co., on block 34. The company has also resumed shipments after two months of development work without production.

Lyons and associates, who are leasing on the big Elkton dump, are outputting at the rate of about 30 tons a day of coarse rock that is averaging $20 a ton. An occasional shipment of screenings and washings that runs in carload lots at the rate of about $600 are on. The lessees are now confident that they will make good money out of their venture.

The Beacon Leasing company, operating on the Prince Albert, sent out another 35-ton shipment today. The ore is estimated to be worth $25 a ton.

Harton and May, who are leasing on the Rhinoceros, owned by the Gould company, received returns a few days ago from their second carload. The ore averaged $156 a ton.

STRIKE NEAR WOODLAND PARK IS REPORTED.

Information has come by way of Denver that a rich strike has been made on Turkey Creek near Woodland Park. It is stated that one prospector named Allen has obtained rock from near Pemberton from which assays have been obtained that run as high as $1,300 in gold to the ton. Allen is supposed to be working for an eastern company and it is stated that he is well known in the district. The Gazette has been unable so far to corroborate this report in this city, but is informed that considerable prospecting has been done in the Woodland Park district.

IMPORTANT STRIKE MADE IN CONT. NEVADA CO.

The Nevada syndicate of this city is in recent receipt of a telegram from those in charge of their property in the Wedekind district of Nevada stating that the showing in the property is very fine, the copper propositions at Peavine gives returns as high as 45 per cent copper from a three-foot vein.

The company announces that it has recently sold a block of 50,000 shares of the company's stock. Owing to the unusually favorable showing the members of the syndicate have pooled their holdings, the only stock now being sold is that of the treasury.

OPERATIONS BY SIX LESSEES ON PROPERTIES.

Special to the Gazette.

Anaconda, Colo., Jan. 10.—The lessees on the Last Chance claim be ongoing by the Mobile Mining company are getting good assays from their workings in the second level of the property.

Coloraco Boss.—This property is under lease to Terril and across the full width of the bottom of the shaft the assays from the workings give average values of $40 in gold to the ton.

Mary Jane.—Lessee Stevens, who is operating a lease on the Golden Wedge claim of this company, is saving ore for his third shipment. The vein is holding out well and the ore runs about $35 per ton.

Little Puck.—The Climax No. 2 claim of this company, which adjoins the Santa Rita, is again being operated by Lessee Martin and associates who are now engaged in installing a 6 by 8 hoist.

Columbine-Victor.—Lessees on the May B. claim of this mining company have another shipment ready to go out. It is mostly composed of screenings that will average $60 per ton.

Elizabeth Cooper.—It is reported that this property will be opened up again by the lessees in the next few days.

OPERATIONS OF LESSEES ON ACACIA PROPERTY.

Lessee Falvey, who is operating a block of ground from the old shaft of the Burns claim of the Acacia company, has just received a settlement for a 30-ton lot. There was 18 tons of the low grade which returned values of $50 per ton and 12 tons of $96 per ton. Most of the high grade comes from the 580-foot level where a good strike was made some time ago. Some very rich ore is now being broken in this level of the mine. Lessee Hills has just closed a shipment from the 600-foot level which is expected to run between 250 and 350 per ton and is now busy hoisting for another shipment from the same level.

E. C. Tritten, who is working a block on the north end of the claim is also saving ore from another shipment. A winze is being sunk on the ore shoot on this lease and during the last week the ore has shown considerable improvement both in value and in quantity.

Gwenby & McKar and, operating the old Wrocklot ground, have just closed a 30-ton shipment of ore which will run between 2 and 4 ounces. This ore comes from the fourth level. They have also just closed a contract for sinking their shaft 200 feet, which will bring it to a depth of 825 feet.

600,000 SHARES SOLD ON OPEN MARKET.

A block of 600,000 shares of the Bob Lee Mining company was sold yesterday on the open market by the firm of Barr & Middagh, the well-known brokerage firm of this city. By this sale of the large block the control of the company passes.

At the reorganization meeting of the board of directors held recently, the resignations of Messrs. Marr and Middagh were accepted. The following prominent stockholders of the company were elected directors: S. J. Hurris, Russell Trenton, H. F. Mitchell, A. Elliott Hart, G. F. Farmer, and subsequently the directors met and elected Oscar F. Farmer, president; S. J. Hurris, vice president; A. Elliott Hart, secretary and treasurer. It is understood that the new management will continue the development work so vigorously prosecuted by the former [illegible]

THE GAZETTE IS THE ONLY NEWSPAPER IN THE STATE WITH ITS OWN PRIVATE WIRE TO THE COLORADO SPRINGS MINING STOCK EXCHANGE.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, Jan. 10.—The mining stock market today was slightly active and stronger as the prospects were not so firm as they were yesterday. Elkton was sold quite heavily again, and (this)bod. bottom at $1.55½, closing at $1.56. Gold Dollar was also low at 7¾ and Isabella went off to 25¾. The demand for Golden Cycle continues to be good, and the stock sold again at 87, while Doctor was very active, and stronger at 42½. Gould was fractionally stronger in the afternoon at 13½ and 100 shares of Golden Fleece sold at 55. Vindicator was also in demand at $1.24, and a block of 300 shares sold at $1.25. Portland and El Paso were not traded in.

Trading in the prospects lists was very limited. Cripple Creek continued to maintain its remarkable strength, and carried away the honors for activity, selling very well and advancing to $9.60 per 1,000 shares, due to a good showing for ore on the property. Easter Bell sold to the amount of 20,000 shares at 2, and Flower of the West was in demand at the same price. The feeling on change was not especially animated, the low prices having come to be taken pretty much for granted; but the more optimistic element is predicting an advance in prices as a result of the enthusiasm which is expected to be raised over the move into the new building next week.

EASTERN MARKETS

By Associated Press.

New York, Jan. 10.—The condition of neglect and professionalism into which the stock market is falling became more evident today not only in the smaller volume of the trading but in the eccentric fluctuations of prices. The net changes in the majority of the list will be found narrow but the day's range was considerable and the changes constant and various. The rule of operation has fallen back to the professional room traders basis of selling on advances and buying on slight recessions.

The speculation continued quite active in Sugar and Manhattan but even in these the characteristics were professional. In Sugar attempts were made to lift the stock on the assumption that Cuban duties would be remitted. Manhattan was affected by rearranging. It was lifted at one time a point over yesterday. General speaking the characteristic of the market was carelessness due to the lack of outside interest and the discontinuance of operations by the larger speculative interest. The tone leaned towards depression, as the lack of demand made the market vulnerable to even light selling pressure. The abandonment of the bull campaign in U. S. Steel and the desire to await a better defined status for the Northern Securities company were general considerations detracting from speculative interest.

There had been an extensive speculation in Delaware & Hudson on a confident assumption that the dividend on the stock was to be increased. This assumption was strengthened by the action of the New Jersey Central directors in increasing their dividend rates from 5 to 6 per cent. The action of the Delaware & Hudson directors today in making the distribution of last year's profits in seven per cent to be disbursed quarterly was therefore a keen disappointment as it represented no better return than that of last year. The stock was sold heavily, causing a break of six points with an influence on the whole market. The unchanged dividend on Louisville & Nashville was also a disappointment, though in a much less degree. The market failed entirely to respond to the promise of a favorable bank statement tomorrow.

The bond market was dull and rather irregular. Total sales, par value $2,815,000.

U. S. bonds were all unchanged on the last call.

Continuous quotations on New York Stocks, Bonds, Cotton, Chicago Grain and Provisions. W. A. Otis & Co., 25 Giddings building.

New York Money.

By Associated Press.

New York, Jan. 10.—Money on call firm at 4@5, closing bid and asked at 4½@5. Prime mercantile paper 6@7. Sterling exchange steady with actual business in bankers' bills at $4.87½@4.87¾ for demand and $4.8-½@4.84½ for 60 days; posted rates $4.85 and $4.88. Commercial bills $4.83¾@4.83⅞. Bar silver 55⅞. Mexican dollars 44½. Bonds—Governments, steady; state, strong; railroads, irregular.

The London Market.

By Associated Press.

New York, Jan. 10.—Commercial Advertiser's London financial cablegram: The stock market today was dull and inactive but things brightened up at the finish especially South Africa shares, on Lord Milner's speech. American stocks were sluggish. Money rates unchanged. A Cape loan is expected next week. It will be £3,000,000 bearing 3½ per cent interest and will probably be issued at 102.

Chicago Grain and Provisions.

By Associated Press.

Chicago, Jan. 10.—As is customary just prior to the publication of crop reports, wheat holders felt extremely shaky over the expected announcement of the wheat yield for 1901. Yesterday's market was depressed over the same nervousness and when the value list was lower at the opening long holders let go in large quantities. The bulk of the business was done early and was mostly on the selling side. May opened ¼ to ⅜ lower at 83½ to 83¾ and then rallied on buying orders at times. It was not long before it sold at 83. Trade grew somewhat quiet for a time but continued reports of the dry critical condition of the winter wheat districts and the rumor that the crop report would be only for the yield per acre leaving traders to guess at the number of acres brought a fair reaction. May sold back to 83⅞ and closed steady unchanged at 83⅝@83¾. Corn had much the same market as wheat in sympathy with that cereal. May closed a shade higher at 66⅝.

Oats were somewhat independent of the situation in the other pits though the weakness had a depressing effect. May closed ¼ lower at 46⅝.

Provisions were dull but heavy under the influence of a weak hog market, the grain slump and selling of lard. May pork closed 10@12½ down, lard 2½ lower and ribs 12½@15 lower.

The leading futures ranged as follows:

	Open.	High.	Low.	Close.
Wheat, No. 2—				
Jan				83⅞
May	83¼	83⅞	83	83⅝
July	82⅞	83¼	82½	83⅛
Corn, No. 2—				
Jan	62½	62	62½	62
May	66¼	66½	65¾	66⅛
July	65⅞	66⅛	65½	66
Oats, No. 2—				
May	46½	46⅝	46½	46½
July	41½	41¾	40¾	41½
Sept	32½	34	33¼	33⅞
Mess Pork, bbl—				
Jan				16.74
May	17.22½	17.25	17.00	17.17½
July	17.20	17.20	17.10	17.10
Lard, 100 lbs—				
Jan	9.10	9.15	9.10	9.15
May	9.30	9.32½	9.25	9.30
July	9.36	9.35	9.32½	9.35
Short Ribs, 100 lbs—				
Jan	8.55	8.55	8.50	8.50
May	8.75	8.75	8.60	8.65

Cash quotations were as follows: Flour—Steady.

No. 3 spring wheat, 75@80c; No. 2 red, 84½@85c; No. 2 oats, 46@46½c; No. 2 white, 46½@48c; No. 3 white, 46@46½c; No. 2 rye, 65c; fair to choice malting barley, nominal; No. 1 flax seed, $1.02; No. 1 northwestern, $1.04½; prime timothy seed, $6.65; mess pork, per bbl, $16.75@16.90; lard, per 100 lbs, $9.15@9.40; short ribs sides (loose), $8.30@8.40; dry salted shoulders (boxed), 7¾@8c; short clear sides (boxed), 8¾@8⅞c; whisky, basis of high wines, $1.31; clover, contract grade, nominal.

Articles.	Receipts.	Shipments.

IN THE FLORENCE PROPERTY

Extensive improvements to be made—Mill Site—Mining Leases Being Made—Leases Being Made in the City.

Special to the Gazette.

Cripple Creek, Jan. 10.—In the main shaft of the Bluebird company on the south slope of Bull hill the station at the 120-foot depth is being cut out. The company expects to have the working complete down to a depth of 1,550 feet by the latter part of next month. The shaft will have to be enlarged in some places and other improvements made before steady work on the ore bodies can be accomplished. The shaft is being sunk over a vein which gives good pay values and screenings.

McDonald and Wiley, operating the south end of the Bluebird property have sent out their initial shipment which consists of 26-100s of 1.36 ore. The lessees are accomplishing good work on a large vein and believe they will be able to maintain a large production from now on.

The output from the Acacia property during December has been made up, showing that 12 carloads were sent out from that property. Of these, three cars contained high grade returning 200 per ton, while the remaining 10 were 20 ore. Work will be resumed on the new shaft about the first of February. There has been considerable delay in sinking the shaft on account of the interference by the railroad grade across the property, and the company has been at work cribbing and straddling this out. With a resumption of work the shaft will be continued down rapidly.

The Marie company's property is in the hands of the sheriff on an attachment by the Colorado Trading and Finance company of $40,47. The Royal Mining company was recently formed by Messrs. Lyon, Stroh and others for the purpose of working the Elkton company's ore house dump. The dump was purchased from the company at a price of $2.50 per ton for the entire tonnage, aggregating about 22,000. The company commenced work on the property the first of last month, after putting in a good equipment and establishing a plan of operating that would cut down expense to a minimum. The company has been shipping very choice ore that will yield good values as the company expected. Besides the attachment of the supply company, there is about $[illegible] due to the men. A directors meeting was held this afternoon for the purpose of smoothing the matter over and putting the company on its feet again. It is believed by those interested that there is a good profit in shipping the waste rock.

Owenby & Adriance, lessees of the Acacia and Warhorse, through the Wrecker mill working, have recently struck two new pay veins. The ore taken were rough in the lower workings and are promising of a steady yield. A shipment of 25 tons of two-ounce ore left the property yesterday, and another of the same quality and grade will be marketed on Monday.

It is understood that the Denver property on the draw between Bull hill and Battle mountain will be started up soon, from time under the Gardner system. The property is to be developed, and several thousand feet of work has been done in the past. The mine has been idle for some time.

Contracts are contemplated, looking to the opening of Battle mountain, yesterday [illegible] of the Florence and Cripple Creek railroad, which extends [illegible] the mouth of the gulch.

The new working machinery at the Bluebird mill, employing the Gilfillan process, is being put in place. The mill is expected to be ready for operation in a few weeks.

[illegible] Company, leasing the Dolphin on Battle mountain, yesterday [illegible] of the Florence and Cripple Creek railroad, which extends [illegible] the mouth of the gulch

BRIEF CITY BITS.

DAILY WEATHER RECORD.

WEATHER FORECAST.

Washington, Jan. 10.—Forecast for Colorado: Fair Saturday and Sunday; variable winds.

Satisfied people wear Ashby's spectacles.

Miss McDonald's lecture, "The Crisis in Italy," 8 o'clock, in Second Presbyterian church.

DANCE TONIGHT.—There will be a dance tonight at Weber hall. Fitch's orchestra will furnish the music.

GOLF TOURNEY.—The usual holiday golf tournament will be held at the Town and Gown links this afternoon, beginning at 2 o'clock. Entries close at noon.

ART EXHIBIT.—The loan art exhibit at Perkins hall closed yesterday. The attendance during the day and evening was gratifying. The pictures will be removed today.

CHORUS REHEARSAL.—The chorus for the musical festival which is to be given in this city January 21 and 22 will hold a rehearsal at 8 o'clock this evening at Perkins hall.

ENTERTAINMENT.—The celebrated Dagmar's little German band and several other equally as funny specialties will be at the Royal Neighbor entertainment at G. A. R. hall this evening.

WAIVED A HEARING.—Ed Collins, who was arrested several days ago on the charge of forgery, waived a hearing yesterday before Justice McClelland and was held in $500 bail for trial in the district court.

BOY HURT.—Clifford Liverpool, a colored boy about 12 years old, was injured in a bicycle collision Wednesday, sustaining a compound fracture of the left forearm. The boy is being attended by Dr. Reasoner.

THE WOMEN OF CHINA.—At Tejon hall this afternoon Mrs. Theodore Marshal Inglis will deliver an address on "Work Among the Women of China." Mrs. Inglis was at Peking during the siege of that place.

MINISTERIAL UNION.—The Ministerial union will meet Monday morning at 10 o'clock at the First Baptist church. Rev. F. N. Calvin will address the ministers on "Twentieth Century Denominationalism, or the Problem of Union."

BAKER'S HEARING.—Edward Baker, who was arrested in Denver Thursday, accused of having obtained money under false pretenses from a number of people in this city, will be given a hearing this afternoon before Justice McClelland.

P. B. STEWART COACH.—The college base ball team will be coached this year by P. B. Stewart, who is an old Yale man and an enthusiast in the sport. Mr. Stewart helped the team last year in the early part of the season. Regular practice will begin about March 1.

H. G. MORGAN, formerly of New York, having leased the house of 22 beautiful rooms at 228 North Cascade avenue near Antlers hotel, intends conducting same as a first-class up-to-date boarding-house. Persons desiring same are respectfully invited to call or write to above address.

BOWLING.—Teams of bowlers from the Town and Gown Golf club and Country club will meet on the Antlers bowling alleys on January 24 for the third in the series of contests for the Dodge cup. Five games will be played, the contest to be decided by the total number of pins.

HUNTING PARTY.—Under the leadership of Joe Renrich a party of well-known club and society people will go out from Fountain on a coyote chase Monday. Among the party will be Mrs. Charles Farnsworth, Mrs. Egbert Smith, Miss Shewin, Clark Stetlen, Walter Scott, Rev. Alexis Stein, D. V. Donaldson and Butler Williamson.

SPECIAL TRAIN.—To accommodate a number of excursionists the Short Line will run a special train to Cripple Creek and return tomorrow. The train will leave the Rio Grande depot at 8:30 in the morning, and the start from the camp on the return trip will be made at 3 o'clock in the afternoon. The fare for the round trip will be 75 cents.

WARRANTY DEEDS.—Among the warranty deeds recorded yesterday were the following: Ruth E. Dougherty to Gust and Sophia Eggert, $1,500, lot 15, block 312, addition 2; Colorado Springs company to John A. Keys, $1,750, lot 5, subdivision of block 202, addition 2; Richard W. Reasoner to Harry D. Fleemeyer, $2,500, lot 1, block 3, Broadmoor Heights addition.

BUILDING PERMITS.—The following building permits have been issued from the building inspector's office: To Mrs. Del B. Robinson for alterations at 139-137 East Huerfano street, to cost $250; to J. H. Alsbury for five-room house and bath at 811 North Spruce street, to cost $1,500; to Mary Murphy for five-room house and bath at 1210 Grant avenue, to cost $1,300; to John Peterson for six-room house and bath at 121 East Kiowa street, to cost $1,200.

NEW CERTIFICATES.—In accordance with the state law, the undertakers are now using a new form of certificate of death. The new provision is that a copy of the certificate must not only be filed with the city as a matter of record, but the undertaker must also preserve a copy. The change is meeting with the usual objections to which innovations are subject.

Many a bright and happy household has been thrown into sadness and sorrow because of the death of a loved one from a neglected cold. HALLARD'S HORE HOUND SYRUP is the great cure for coughs, colds and all pulmonary ailments. Price, 25 and 50 cents. Holley-Accularius Drug Co.

Waists, hats and gloves carefully cleaned. Pantatorium, 17 E. Bijou. Branch 827 N. Tejon. Phone 523-a.

Dr. Grannis, dentist, 401 Nat. Bank Blk.

Excursion Rates

To all southern and southeastern tourist points, also El Worth, Texas, via Rock Island route. Full particulars at City Ticket Office, No. 2 Pike's Peak avenue. Phone 78. W. W. Wood, general agent passenger department.

COLORADO SPRINGS & CRIPPLE CREEK DISTRICT RAILWAY.
SUNDAY SPECIAL.
OVER THE SHORT LINE
WILL LEAVE AT 8:30 A. M.

To accommodate the large number of people who desire to enjoy the grandest scenic trip in America on Sunday, the Short Line has arranged for a special train to leave Colorado Springs at 8:30 a. m., on Sunday, A. M., January 12, returning, the special train will leave the Cripple Creek at 3 p. m., reaching here at 7:45 p. m. Our passengers may remain in the camp until 1 p. m. and reach here at 6:45 p. m.

The round trip rate over the Short Line, the people's road, is only 80 cents.

CALIFORNIA LIMITED TRAIN.
Runs daily via the Santa Fe—only 48 hours to Los Angeles—no extra cost for tickets on this train.

It's only 50 cents one way, 80 cents round trip, limit five days from date of sale, to Cripple Creek District points via THE SHORT LINE.

El Paso and Return $23.00

Santa Fe will sell tickets to El Paso and return at $23 on our mid-winter excursion. Dates of sale, Jan. 12, 13 and 14; return limit Jan. 31.

75 cents to Cripple Creek by the Colorado Midland railway.

Your Eyes Need Attention

They blur and pain you while reading during these long evenings. Your head aches; you have a dull pain at the base of brain. These troubles can all be overcome by having your eyes scientifically fitted to a pair of glasses. We have a specialist who devotes his entire attention to this branch of our business.

R. ASHBY,
THE OPTICAL JEWELER
Colorado Springs.

DR. E. W. THOMPSON,
DENTIST,
Will remove to the Cheyenne Building, Corner of Cascade and Pike's Peak Ave. about January 6.

THE EAGLE GROCERY AND MARKET

We have just given away an

Elegant Piece of Set

and the chances on that are gone, but we will sell you goods just as cheap, however.

There were over 6,000 chances out on this set, and the lucky number was 9,303.

The fortunate lady was Mrs. Gilham, of 322 E. Cimarron street. Watch our ad closely and see what we will give you next. It will be worth your while to get a chance on it.

HIBBARD & COMPANY
Saturday Specials

GLOVES

These specials include our best gloves and we have made the prices for this sale much less than you pay at any other time. Every pair of kid gloves is guaranteed and the same as if you paid full price.

At $1.29 Pair
Our French $2.00 Kid Gloves. Made from real French Kid skin. All colors, all sizes. Every pair guaranteed and fitted.

At $1.00 Pair
Our $1.25 Bon Marche Kid Glove. Made from French Lamb skin. An excellent assortment of colors. All sizes. Latest style stitching. Every pair guaranteed and fitted.

At $1.00 Pair
A large line of our regular $1.50 lined gloves. Silk lined Mochas and fleece-lined Kid and Worsted gloves.

At $1.25 Pair
Ireland's $1.50 Dogskin gloves, pique sewn. New pearl clasps. Colors: grey, tan and modes.

SECOND FLOOR

We can fit out your boys and girls with strong, durable stockings for less money than you have been in the habit of paying. Don't take our word for it. Examine these Special Prices for Saturday Only:

At 10c Pair
A good 15c hose. That's what it is. Made from good, hard-twisted yarn. Double knees and extra heavy soles and toes.

At 19c Pair
The Hickory Hose for boys and girls. The name "Hickory" fully describes this hose. Tough and elastic, will stand all kinds of hard knocks. The equal of most 25c hose.

We Sell Warner's
"FAULTLESS" HOSE
For Ladies and Children.
Saturday's Price, 23c Pair
